

PILE MASTER 24-2500 AIR HAMMER

OVERVIEW

Originally built for the dock building industry, Pile Master air hammers are designed for driving timber, h-pile, pipe, and prestressed concrete piles. The model 24-2500 hammer is specifically designed for driving timber, vinyl/fiberglass piles, and steel H-Piles. With a total weight of only 5,100 lbs. the Pile Master Model 24-2500 delivers up to 5,000 ft. lbs. of energy, making it a great choice for driving piles with limited equipment lifting capacity. Pile Master air hammers are known for their efficiency, producing up to 90% energy transfer into the pile while using an air compressor as small as 125 CFM.

SPECIFICATIONS

Ram Weight (lbs)	2500
Hammer Weight (lbs)	5100
Stroke (in)	6-24
Energy Rating (ft lbs)	1250 - 5000
Blows per Minute	55-60
Recommended Air @ PSI	185cfm @ 125
Length of Hammer (in)	144
