

PILE MASTER 24-900 AIR HAMMER

OVERVIEW

Originally built for the dock building industry, Pile Master air hammers are designed for driving timber, h-pile, pipe, and prestressed concrete piles. The model 24-900 hammer is specifically designed for driving timber and vinyl/fiberglass piles. With a total weight of only 2,300 lbs. the Pile Master Model 24-900 delivers up to 1,800 ft. lbs. of energy, making it a great choice for driving piles with limited equipment lifting capacity. Pile Master air hammers are known for their efficiency, producing up to 90% energy transfer into the pile while using an air compressor as small as 125 CFM.

SPECIFICATIONS

Ram Weight (lbs)	900
Hammer Weight (lbs)	2300
Stroke (in)	6-24
Energy Rating (ft lbs)	450-1800
Blows per Minute	55-70
Recommended Air @ PSI	185cfm @ 100
Length of Hammer (in)	126
